773 part in other activities still remains with the Sheng Miao today.
776 Thunder, dragon, tiger, and rocks are all important objects of worship, to which they sacrifice devoutly as if these were gods. Thunder especially is considered as a majestic god, and every
[821] time when thunder roars in the heavens they would immediately stop work and inquire who has provoked his anger for fear that the dreaded flood in their mythology would descend upon them again. Every year during the time of spring thunder, there is
[796] held a special ritual called "genhou," when all work is stopped for three days to avert the disaster from heaven.

4. The story of a monstrous birth through incestuous mar-
171 riage which serves to limit consanguineous marriage, is com-
773 mon with most primitive peoples. The foregoing myth also tells of a melon-shaped child born of a wedlock between En and Mei, who are brother and sister. It is conceded by many historians that marriages among the earliest peoples were incestuous. In the mythology of the Sheng Miao the brother and sister got married because mankind was destroyed by the flood, and they had no alternative but to marry each other even though they were fully aware of the impropriety of the union. The marriage was advised by an old dame and a little insect, who told them to proceed from opposite directions, each holding an umbrella and with leaves covering up their eyes, and upon meeting, to call each other "lao piao" [lit., old cousin]. In a similar way when a brother and sister among the savage people of Polynesia are united in marriage, they call each other "pu-na-lu-ya" (dear ones) instead of brother and sister. [147] Nevertheless it was an incestuous marriage, and the melon child was the result. The fact that today there is still such a conception among
773 the Sheng Miao shows the existence of this marriage system in the past. Although they now avoid marriages between the same surnames and between people of the same village, the
[177] acquisition of their surnames from the Chinese is comparatively
[551] of recent origin. Moreover, their acceptance of marriages
[588] between cousins makes us suspect that there are still cases of incestuous union among them.
